Headquartered in McLean, VA, BAE has offices located throughout the U.S. and across the globe

# BAE ASTRO POOLS

**BAE Systems holds the following ASTRO Pools:**

1. **Data Operations**
   Contract #: 47QFCA22D0004

2. **Mission Operations**
   Contract #:47QFCA22D0053

3. **Space**
   Contract #: 47QFCA22D0203

4. **Maritime**
   Contract #: 47QFCA22D0253

5. **Ground**
   Contract #: 47QFCA22D0153

6. **Training**
   Contract #: 47QFCA22D0454

**BAE Systems, Inc.** and its 35,000 people are part of a global defense, aerospace and security company with 89,600 employees worldwide. We deliver products and services for air, land, sea and space, as well as advanced electronics, intelligence, security, and IT solutions and support services.

Our dedication shows in everything we design, produce and deliver— to protect those who protect us in a high-performance, innovative culture. We push the limits of possibility to provide a critical advantage to our customers where it counts.

# KEY CAPABILITIES

## PLATFORM READINESS & MODERNIZATION

- Sustainment of U.S. strategic weapons systems and platforms, including the Intercontinental Ballistic Missile and Strategic Systems Program
- Systems engineering and integration (SE&I), installation, support and sustainment services for globally deployed radars and sensors

## C5ISR INTEGRATION

- C5ISR integration services for sensors, radars, combat & intelligence systems
- Integration and technical services for Lifetime Support Engineering (LSE) and In-Service Engineering (ISE) for Radio Communication Systems (RCS), C5ISR and related missions systems aboard U.S. Navy surface combatants supporting shore sites, shore-based and airborne platforms

## INTELLIGENCE

- Intelligence collection, processing, and advanced augmented analytics, FMV and GEOINT analysis services across the U.S. Intelligence Community
- All Source and Open Source Intelligence (OSINT) data analytics and tools supporting conventional and special operations forces
- High performance computing (HPC) services

## IT & CYBER

- IT & Cyber for Enterprise and Mission Infrastructure Applications and cyber resilience
- Scalable full life-cycle IT systems engineering and operational support services to the U.S. DoD and Intelligence Community for CONUS and OCONUS operations
- Software SecDevOps and services enabling application migration to cloud

## SPACE SOLUTIONS

- SE&I space launch support solutions in mission critical and high-risk environments, SE&I testing, operations and sustainment services for space mission ground services
- Operations, maintenance, and support services for missile warning and space surveillance, range instrumentation tracking systems
