

ASTRO

A GSA FEDSIM Assisted Acquisition Services Multiple Award IDIQ

ASTRO is a suite of Multiple Award IDIQs (MA-IDIQs) managed by GSA's FEDSIM Assisted Acquisition Services (AAS) that gives federal agencies access to contractors highly technically qualified in critical support functions, operations services, and maintenance to manned and unmanned platforms and systems.

SCOPE

Deloitte offers the breadth and depth of its services to clients on the ASTRO vehicle – delivering forward leaning capabilities and solutions to our clients in their mission space on the Data Operations Pool and the Services Pool.

Pool 1: Data Operations

The scope of the Data Operations Pool includes all data collection, processing, exploitation, and dissemination activities associated with manned, unmanned, and optionally manned platforms and robotics supporting mission performance.

NAICS Code

541990 – All Other Professional, Scientific, and Technical Services

Pool 9: Support

The scope of the Support Pool includes all support services required for successful execution of a product, program, project, or process regarding platforms and robotics for land, air, sea, or space; the planning necessary to support and the analysis of an operational mission.

NAICS Code

541990 – All Other Professional, Scientific, and Technical Services

DELOITTE CAPABILITIES

Deloitte's Defense, Security & Justice practice serves all branches of the military, agencies of the Department of Defense, and the intelligence community, as well as the Departments of Homeland Security and Justice. From cyber and logistics to visualization and mission analytics, personnel, and finance, we drive bold and lasting results.

Deloitte US Drone Services. Deloitte balances innovation and risk mitigation to assist clients with the integration of UAS into their mission space and navigate policy, regulation, and vendors in the UAS ecosystem.

Analytics and Data Modernization. Deloitte using next generation cloud-enabled platforms and big data architectures to enable analytics and AI-powered organizations.

Robotics and Intelligent Automation. Deloitte works with clients to implement automated processes to emulate human decision-making, interactions, and judgments and discover new opportunities to drive results.

Cloud Services. Deloitte delivers cloud solutions across the client mission space, including tailored cloud transformations, implementation of cloud applications, infrastructure management, as well as compliance and cybersecurity services, delivering resilient and reliable operations for enterprise cloud workloads..

Detect and Respond Cyber Services. Deloitte helps organizations adopt a more strategic lens and approach to proactively monitor, detect, and respond to the toughest cyber threats, including threat intelligence, security operations development, cyber incident response, analytics, and threat hunting..

Data and Privacy. Deloitte assists clients in their data discovery, collection, processing, sharing, protecting, archiving, and deletion. Deloitte enables data privacy and protection across the data lifecycle, helping organizations build sustainable programs designed around strategic principles that address operational and regulatory requirements, holistically.
