SAIC® is a premier Fortune 500® technology integrator driving our nation's technology transformation. Our robust portfolio of offerings across the defense, space, civilian and intelligence markets includes secure high-end solutions in engineering, digital, artificial intelligence and mission solutions. Headquartered in Reston, Virginia, SAIC has annual revenues of approximately \$7.4 billion with over 26,000 employees worldwide.

Our capabilities and services create the best possible future for our customers through innovative, effective and efficient solutions. SAIC's robust model-based systems engineering ecosystem integrates multiple disciplines to provide our customers with resilient solutions that accommodate rapid improvements in technology. Our systems engineering and integration (SE&I) services encompass a system's life cycle from concept and development through deployment, operations, and retirement.

**Advanced Analytics and Simulation**

- Analysis services
- Data frameworks and environments
- Data management processes and toolkits
- Mission applications and tools
- Modeling and simulation

**Engineering, Integration and Logistics**

- Design and integration
- Digital engineering services
- Integration product support
- Logistics and supply chain services
- Systems engineering

**Training and Mission Solutions**

- Acquisition management support
- Training asset development
- Training delivery
- Training infrastructure and support
- Program management, business and office support
- Strategic communications and multimedia production
