SRCTec is a nationally recognized provider of electronic systems and custom manufacturing services. Our global customers are primarily found in the defense and advanced manufacturing markets and rely on SRCTec to meet their complex, high-performance requirements.

SRCTec is a subsidiary of SRC, Inc., a research and development company with more than 65 years of experience in defense, environment, and intelligence. SRCTec and SRC work together to design, manufacture, and provide life cycle support services for award-winning defense products such as

- Air surveillance radars
- Counterfire radars
- Counter-IED and Counter UAS systems
- Ground surveillance radars.

SRCTec's manufacturing proficiencies include

- Final assembly
- Integration and test
- Manufacturing, process, test, and quality engineering
- Manufacturing program management
- Materials management
- Test and quality assurance

SRCTec also provides life cycle management services tailored to the needs of our customers and end-users. We offer a full range of logistics support services including:

- Supportability analysis
- Reliability/maintainability engineering
- Comprehensive training
- Operator and maintenance manuals
- 24x7 product support engineering
- Field-level maintenance and repair
- Depot-level repair
- System upgrades
- Sustainment engineering to address technology-refresh and obsolescence management
