This material consists of CACI International Inc general capabilities information that does not contain controlled technical data as defined within the International Traffic in Arms Regulations (ITAR), Part 120.10, or Export Administration Regulations (EAR), Part 734.7-10. (PRR ID479)

CACI is a \$6B international leader in unique and innovative services and Information Technology solutions for the US federal government for over 60 years. CACI proudly provide solutions to the US federal government including defense, homeland security, intelligence, and healthcare. CACI is ever vigilant in helping our customers meet their greatest enterprise and mission challenges in national security and government modernization. Our distinctive expertise and technology deliver innovation and excellence.

### Capabilities:

CACI capabilities include operations, maintenance, readiness, research, development, systems integration, and support for manned, unmanned, and optionally manned platforms and/or robotics, as well as the services that support those platforms and robotics.

- **Digital Solutions** - Using our Agile-at-scale methodologies and deep customer understanding, CACI modernizes applications, infrastructure, and business processes to enhance performance and increase end-user satisfaction. CACI uses advanced data analytics and visualization tools to modernize access to data, enhance productivity, and translate data into decisions.
- **C4ISR, Cyber, & Space** - CACI provides technology that enables C4ISR superiority for air, ground, sea, space, and cyber domains. Our software defined electronic warfare (EW), signals intelligence (SIGINT), and counter-unmanned aircraft technologies (C-UAS) provide protection and deliver precision effects against any adversary. CACI delivers groundbreaking space technology – from laser communications and advanced launch operations to exploitations in the space domain. Our innovations in cybersecurity address today's and tomorrow's challenges and overlay across our EW, SIGINT, C-UAS, and resilient communications technologies.
- **Engineering Services** - CACI optimizes and integrates technologies to deliver a decisive tactical edge. We enhance platforms to improve situational awareness, mobility, interoperability, lethality, and survivability. We conduct software vulnerability analysis and harden technology to protect against malicious actors. Our platform-agnostic, mission-first approach ensures optimal performance, so our nation's forces can overmatch our adversaries.
- **Enterprise IT** - CACI modernizes end-to-end IT infrastructure to secure and deliver data. CACI amplifies efficiency with unmatched expertise and next-generation technology. We design, implement, secure, and sustain information technology infrastructure to optimize efficiency, enhance performance, and ensure end-user satisfaction.
- **Mission Support** - CACI's intelligence support ensures continuous advances in collection, analysis, and dissemination to optimize decision-making. We provide analytic services in 50 languages, as well as scenario-based instruction across the spectrum of intelligence processing, collection, and products. Our investigation and litigation experts support the U.S. government on thousands of cases, saving taxpayers billions of dollars. And CACI facilitates the secure flow of supplies across the globe.

**CACI capabilities cover the full spectrum of the ASTRO Contract with awards in all 10 pools**
