### ASTRO Pools:

- Mission Operations
- Aviation

### Headquarters facility:

1807 Airport Drive  
San Marcos, TX 78666

### Current Operating Locations:

- North America
- Europe
- Africa
- Central Asia
- Western Pacific

### Operating Authorities / Accreditations

- FAA Part 135 Air Carrier
- FAA Part 145 Repair Station
- EASA Part 145 Repair Station
- DOD Approved Air Carrier (CARB)
- DCMA 8210.1C Chg 1 Operations
- Army AR 95-20 Operations
- NAAMTA Medical Transport
- CAMTS Medical Transport

### BAI is a Small Business under NAICS:

481211 – Chartered Passenger  
481212 - Chartered Freight  
336411 – Aircraft Manufacturing  
541715 – R&D

BAI has a cleared facility and  
personnel.

Founded in 1983, Berry Aviation, Inc. (BAI) is a 14 CFR Part 135 Air Carrier that has been U.S. Department of Defense (DOD) Commercial Airlift Review Board (CARB) approved since 1987.

The BAI Part 145 Repair Station is a fully certified airframe Maintenance Repair and Overhaul (MRO) station with more than 65,000 square feet of space located at the San Marcos Regional Airport.

BAI provides COCO (platform-as-a-service) and GOCO specialty aviation solutions and possesses extensive operating experience in some of the world's most austere and unique environments.

BAI's customers and end-users include all branches of DOD and U.S. Special Operations Command (USSOCOM). BAI has consistently held incumbent positions on CONUS and OCONUS DOD contracts for over thirty-two (32) years and conducts 14,000 flight and ground operations globally per year.

Berry Aviation's special mission aviation solutions include:

- Passenger, Cargo, and COMBI operations
- CASEVAC/MEDEVAC
- Personnel & Cargo Static-Line Air Drop and Military Freefall (MFF)
- Operations from austere locations, unimproved runway operations and STOL
- FAA approved NVG operations
- DCMA 8210.1C Change 1 Operations
- Worldwide Logistics
- Manned & Unmanned ISR Operations
- Low-Cost Airborne ISR Training & Exercise support
- Special Mission Aircraft Modifications
- UAS Platform Development & Integration
- Aircraft Maintenance Repair, Overhaul & Modification (MRO)
- Component Repair and Overhaul (CRO)

BAI's Supply Chain services (Bayview Aviation) are accredited to the FAA Advisory Circular AC 00-56. Bayview is a stocking supplier of consumable, expendable and rotatable material for the DHC-8 and other aircraft. Including avionics, instrumentation, electrical, hydraulics, props, control surfaces, landing gear and more.

BAI Unmanned Airborne System (UAS) Division conducts Rapid Prototyping of UAS platforms, Launchers, and Recovery Systems. Services include payload integration and flight testing.
